# MARTIN REID

## BLOCK COLLECTION USING **tretford**<sup>®</sup> Custom Rugs

Tretford Custom Rugs offers limitless design capability and a vibrant colour palette with optimum durability. Tretford has a unique structural hard-edged construction and is dimensionally stable – this means Tretford will not fray or unravel at the edges and eliminates the need for conventional binding. The dimensional stability also gives you the flexibility to cut Tretford to any shape, giving you endless possibilities for custom designs. It is made with the highest grade Cashmere goat hair from renewable and sustainable resources.

We're proud to be able to bring you Martin Reid's BLOCK collection of Tretford Custom Rugs. Martin has a multi-disciplinary background in industrial design and architecture. Establishing his practice in 1999, he has developed products, built environments and exhibition installations for many influential brand leaders in Australia's design industry. The Tretford rug collection Martin has designed is inspired by his passion for texture, colour and form and the magical interplay between these elements. This collaboration brings together the quality and manufacturing expertise of the Gibbon Group and the design/product skills of Martin Reid to create a unique rug collection.
