MICHAEL PHILLIPS

KOLORBRIX COLLECTION USING **tretford**[®] Custom Rugs

Tretford Custom Rugs offers limitless design capability and a vibrant colour palette with optimum durability. Tretford has a unique structural hard-edged construction and is dimensionally stable – this means Tretford will not fray or unravel at the edges and eliminates the need for conventional binding. The dimensional stability also gives you the flexibility to cut Tretford to any shape, giving you endless possibilities for custom designs. It is made with the highest grade Cashmere goat hair from renewable and sustainable resources.

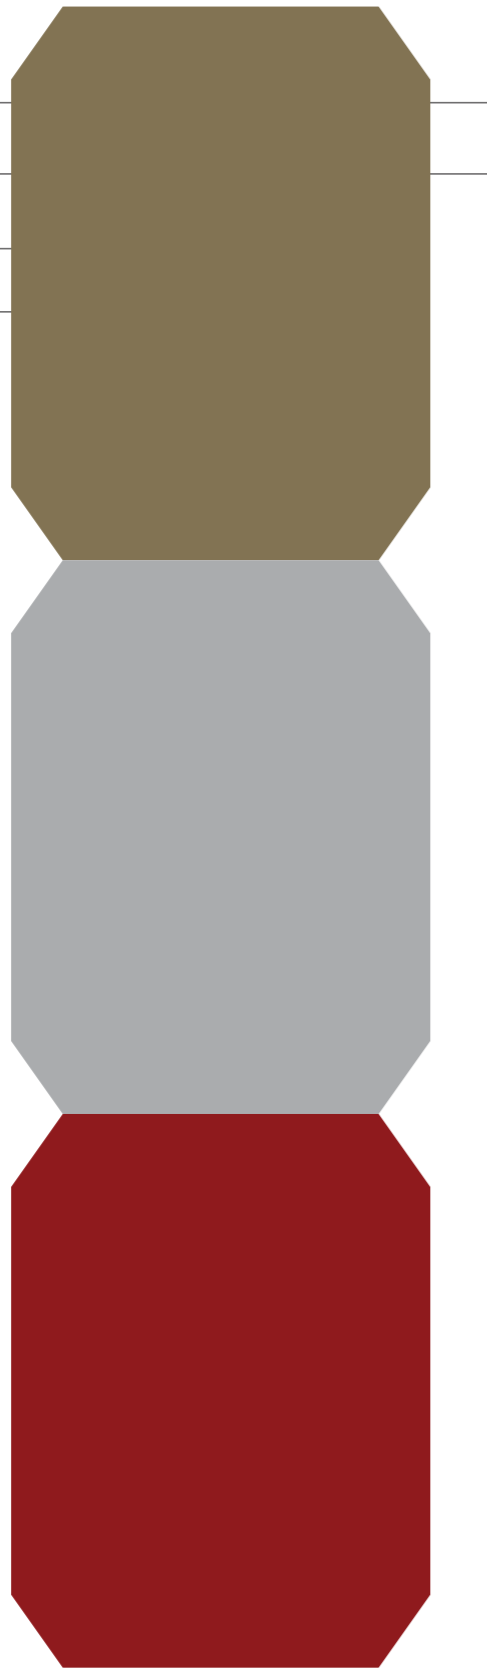

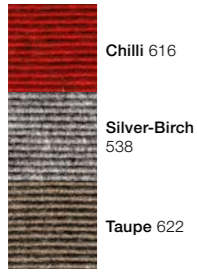

We're proud to be able to bring you Michael Phillips' KOLORBRIX collection of Tretford Custom Rugs. Michael Phillips' diverse creative practice spans the built environment, publication design, screen-printing, painting and sculpture. His multi-disciplinary practice is informed by the arts and crafts movement and the Bauhaus style of teaching he received when studying at QUT. Both of these key artistic movements saw art, craft and design as integrally connected and interchangeable disciplines. These philosophies, as well as Phillips' ethos of 'making do', underpin and connect his seemingly disparate works. The body of work for the Gibbon Group is grounded in the materiality of the product (the fibre, colour palette and the ease of shape making), the use of factory off-cuts (to reduce waste to a minimum) and the creation of templates and pattern units that can be scaled and duplicated to accommodate spaces ranging from the domestic to large scale commercial interiors.
